Population Health – In Health: Blue Health

The Population Health program targets populations with one or more chronic health conditions. The current chronic health conditions identified by OGB are diabetes, coronary artery disease, heart failure, asthma and chronic obstructive pulmonary disease (COPD). OGB may supplement or amend the list of chronic health conditions covered under this program at any time. (The In Health: Blue Health Services program is not available to Plan Participants with Medicare primary.)

Through the In Health: Blue Health Services program, OGB offers an incentive to Plan Participants on Prescription Drugs used to treat the chronic conditions listed above.

a. OGB Plan Participants participating in the program qualify for $0 Copayment for certain Generic Prescription Drugs approved by the U. S. Food and Drug Administration (FDA) for any of the listed chronic health conditions.

b. OGB Plan Participants participating in the program qualify for $20 Copayment (31 day supply), $40 Copayment (62 day supply) or $50 Copayment (93 day supply) for certain Preferred Brand-Name Prescription Drugs.

c. OGB Plan Participants participating in the program qualify for $40 Copayment (31 day supply), $80 Copayment (62 day supply) or $100 Copayment (93 day supply) for certain Non-Preferred Brand-Name Prescription Drug. Non-Preferred drugs typically have lower cost alternatives available in the same drug class.

d. If an OGB Plan Participant chooses a Brand-Name Drug for which an FDA-approved Generic version is available, the OGB Plan Participant pays the difference between the Brand-Name and Generic cost, plus a $40 Copayment for a 31 day supply.

The In Health: Blue Health Services prescription incentive does not apply to any Prescription Drugs not used to treat one of the listed health conditions with which you have been diagnosed. Please refer to the Care Management article, Population Health – In Health: Blue Health section of the Benefit Plan for complete information on how to qualify for this incentive.

OGB'S Pharmacy Benefits Manager

MedImpact Formulary: 3-Tier Plan Design*

OGB's Pharmacy Benefit Manager for the 2016 Plan year is MedImpact. OGB will use the MedImpact Formulary to help Plan Participants select the most appropriate, lowest-cost options. The Formulary is reviewed on at least a quarterly basis to reassess drug tiers based on the current prescription drug market. Plan Participants will continue to pay a portion of the cost of their prescriptions in the form of a copayment or

coinsurance. The amount Plan Participants pay toward their prescription depends on whether they receive a generic, preferred brand or non-preferred brand name drug. You must use drugs on the Formulary to qualify for pharmacy benefits under the Plan.

*These changes do not affect Plan Participants with Medicare as their primary coverage.
